For the purpose of investigating cases of necessity. and of application for the charity of the Convention, there are two standing Committees; a Central Committee, chosen centrally, and a Reporting Committee, whose members reside in different parts of the State. The Reporting Committee are required, each year, to investigate the circumstances of the objects of this charity, whether already on the list, or needing, or applying the first time for aid, and make a particular statement to the Central Committee, directed to the Scribe of the Convention, at least one week before the meeting of the Convention. Should any member neglect so to do for two successive years, his place in the Reporting Committee shall be vacated. The Central Committee receive from the members of the Reporting Committee applications and statements of facts in behalf of subjects of the charity of the Convention, and, having considered the same, are to judge of the persons to be relieved, and the proportion to be given to each, and make report to the Convention, on the first day of their meeting, annually.

The statements of the members of the Reporting Committee are expected to contain answers to the following questions-

- What are the number, the sex, the ages, and the circumstances of her children?
 - What is a fair estimate of her property?
 - 4. What is her ability to help herself?

General Association in Massachusetts.

This body was organized in June, 1805. It is composed of delegations from particular Associations of evangelical Congregational Ministers, two from each Association. Its members "admit, as articles of faith, the doctrines of Christianity as they are generally expressed in the Assembly's Shorter Catechism," and consider these doctrines which have been generally embraced by the churches of New England as the "basis of their union." This body wholly disclaims ecclesiastical power or authority over the churches, or the opinions of individuals. The essential objects, as expressed in their Constitution, are "to promote brotherly intercourse and harmony, and their mutual animation, assistance, and usefulness as ministers of Christ."

THE MARINE TELEGRAPH OBSERVATORY,

Central Wharf, under the direction of Mr. J. R. Parker.

This Observatory will enable vessels, by the assistance of only 7 flags, (admitting of 9330 changes,) to communicate intelligence to each other with ease when they are at sea, and to the shore when they are approaching it, and to

announce their arrival in our bay.

The name of the vessel, her passage, and the port from whence she came, is communicated from the pilot boats in the bay, to the outer station, located upon Point Alerton Hill at Nantasket, from thence to the repeating station at George's Island, or to the maritime station at Rainsford Island, thence to the Observatory on Central Wharf, all which communications are immediately transmitted to the City Hall Reading Room, to the Insurance Offices, and to the owners of the vessels thus announced. Already 1500 sail of vessels have adopted this system.

In connection with this establishment, Mr. Parker, the superintendent, has a Telegraphic Repeating Station on the cupola of the City Hall, to designate and give the fol-

lowing information, by hoisting flags and balls.

A red and yellow conversation flag at the south side of the cupola, denotes the arrival of the Southern Land Mail; and black balls hoisted here, tell the arrival of ships in the harbor, and for barques white balls are used. To denote the arrival of the New York Steam Boat Mail, a white flag is displayed on the north side of the cupola; black balls are also used here to give the arrival of brigs.

East Boston was first occupied by Samuel Maverick in 1629, where he built a fort, mounting four guns. Mr. Maverick was an Episcopalian, and was esteemed "the most hospitable man in all the country, giving entertain-

ment to all comers gratis."

In 1633, the General Court made a grant of this island to Mr. Maverick, he paying to the Court "a fat wether or a fat hog annually, or £10 in money." The title passed to George Briggs in 1650, in 1668 to Richard Newbold, and from him to Sir Thomas Temple, from Temple to Col. Samuel Shrimpton, and from his heirs to the East Boston Company. Mr. Henry H. Williams had been in possession of this island from 1793.

In 1814 the citizens of Boston erected a fort on its eastern extremity, called Fort Strong. In 1831 a few capitalists purchased this island, containing 660 acres, with only one house, portioned it out into streets and lots, and have made it an important part of the city. It has now over 100 houses, a Sugar Refinery, a Cast Iron Foundry, a Church, an extensive Hotel, and the Depot of

DR. HERSCHEL'S TABLE

For Foretelling the Weather, through all the Lunations of each Year, forever,-amended by

DR. ADAM CLARKE.

This table and the accompanying remarks are the result of many years' actual observation; the whole being constructed on a due cou-sideration of the attraction of the sun and moon, in their several positions respecting the earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the moon into any of its quarters, and that so near the truth as to be seldom or never found to fail.

| If the new moon, the lst qr., the full moon, or the last qr.happens | | IN WINTER. |
|---|---|---|
| Between midnight & 2 in the morning, \ — 2 and 4 morn. | Fair. { Cold, with frequent | Hard frost, unless the wind be S. or W. Snow and Stormy |
| 4 and 6 " 6 and 8 " | showers Rain. Wind and rain. | Rain. Storiny. Cold rain, if wind W. |
| 8 and 10 " 10 and 12 " At 12 o'cl'k, at noon } | Changeable Frequent Showers. Very rainy | Snow, if east. Cold and high wind. Snow or rain. |
| and 2 P. M. 5 Between 2 and 4 P. M. — 4 and 6 " | Changeable. Fair. | Fair and mild. Fair. |
| 6 and 8 " { | Rainy, if S. or S. W. | Fair and frosty, if wind north or north-east. Rain or sn. if S. or S.W. Ditto. |
| — 10 and midnight | Fair. | Fair and frosty. |

Observations .- I. The nearer the time of the moon's change, first quarter, full and last quarter, are to midnight, the fairer will the weather be during the seven days following.

2. The space for this calculation occupies from ten at night till two

3. The nearer to mid-day or noon, the phases of the moon happen, the more foul or wet weather may be expected during the next seven

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the summer, though they affect spring and autumn nearly in the same ratio.

5. The moon's change, first quarter, full, and last quarter, happening during six of the afternoon hours, i. e. from four to ten, may be followed by fair weather; but this is mostly dependent on the wind, as is noted in the table.

6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of autumn, the whole of winter, and the beginning of spring, yet, in the main, the above observations will apply to those periods also.

> "An evening red and morning gray, Will set the traveller on his way; But an evening gray and a morning red, Will pour down rain on a traveller's head."
